

# SkyDive Ft Wayne

at Angola airport

1-800-379-3340

[www.skydiveftwayne.com](http://www.skydiveftwayne.com)

Skydiving is an exceptional sport; thrilling, yet peaceful; high-speed, yet graceful. I've always found the experience difficult to adequately describe, something you have to discover for yourself. Thanks to the advance design of parachute equipment today, especially our state-of-art training equipment, more people from all walks of life are learning to skydive.

Our price for your first skydive is \$200, (or \$220 for tandem)\*, and that is a complete price which includes the class, use of all skydiving equipment and radios, instructors in the air and on the ground, and your skydive. Also included is a certificate suitable for framing. Additional skydives are \$95\* as an IAD student. Twenty jumps are typically required as a student, then you would have the skills needed to apply for your "A" license from the United States parachute Association. Following graduation, most skydivers choose to purchase their own parachute system. (We can offer advice and assistance with this). The cost per jump as an experienced skydiver using your own equipment is \$20\*.

\*Prices are subject to change w/o being published in this document

At times, during the year, classes fill in advance. I suggest that you reserve your preferred date to attend class as soon as possible. If you have additional questions not answered in the brochure, just call or email (phone and email address shown on this letterhead).

## RESERVATION FORM

Complete the information below and mail along with your  
Deposit of \$50.00 per person

To: Skydive Ft Wayne  
456 S. Locke Street  
Nappanee IN 46550

Make checks payable to **Skydive Ft Wayne**, the balance is due at the start of class. You may request a class date for Saturday or Sunday. Solo (IAD) jump classes begin at 9:30AM. Tandem jumps can be scheduled throughout the day. If your requested date is not available when we receive your reservation form, we will call you to suggest an alternate day.

**Location:** We have located our operation at Tri-State Airport in Angola, Indiana. The airport in Angola, is an ideal location for skydiving and the numerous lakes visible from the air help make this one of the most scenic skydiving centers in the mid-west. The airport is only minutes from both Interstate 69 and the Indiana Toll Road, therefore easily accessible from any direction.

From Interstate 69, Take the Angola Indiana Exit (exit # 148). Turn WEST on US highway 20. The airport is located about 2 miles West of I-69 on US 20 (North side of the road). Skydive Ft. Wayne operates out of the North-East hangar.

**CLASS CHOICES:** The classroom portion of our First Jump Course is held on Saturday or Sunday morning at 9:30 AM, with your first jump taking place in the afternoon following class. The class generally takes about three hours to complete. Simply indicate your preferred day on your reservation form.

Tandem skydives do not require the full class, rather a shorter briefing is needed to prepare you for skydiving attached to your instructor. Video and still photos of your tandem jump can be purchased for an additional fee. The fee is paid separately when you arrive to make your skydive. However, if you desire video, please indicate this on the reservation form so that we make sure the videographer is available when you arrive.

Custom class times?...yes, we are sometimes able to schedule a class on other days and times to accommodate difficult schedules. There is a class minimum of 3 people for this to be considered. Please call for details.

Please be on time for the class you select on your reservation form. You do not need confirmation from us (we will only contact you if the date you request is not available).
